- Professional quality of services provided by a highly motivated team.

- Courage and readiness to communicate on behalf of client in crisis.

- **Strong technological background**

- **24/7availability**

Corporate Social Responsibility

With any company's success responsibility arises towards its environs the society in which it operates. Responsibility which the company itself perceives and which is also expected and sometimes loudly demanded by its fellow citizens.

Responsibility which ultimately becomes a key factor for a truly sustainable prosperity of the company. Companies often invest significant funds into their corporate responsibility (CSR) projects but are rarely able to measure their impact. Without a clear strategy and carefully designed processes the spending on "charity projects" often becomes money sent down the drain. In fact the company can end up with accusations of corruption in the media instead of public praise.

Cubeheap has experience with professionalizing each phase of the company's CSR starting from baseline analysis through strategy and capacity building to setting transparent processes for project selection and evaluation

- **CSR Strategy Preparation**
- **CSR Project Management and Communication**
- **CSR Project Evaluation**
